Dear Bill:

I had to take a moment to let you and your girlfriend know how extremely happy my husband and I were with your DJ services on our wedding day on May 6th. (This was the double wedding at Valley View - as if you could have forgotten).

First of all, I thank you for your video service. It was so nice to sit down after we got back from our honeymoon and re-live our ceremony and reception. It was the first time I actually "heard" what the judge said to us. I was too nervous then to hear a word.

Everyone appeared to have a wonderful time on the dance floor and many compliments were given to us on our choice of DJ. You got out on the floor with everyone and made sure we had a good time. I was so happy to see how much fun everyone seemed to be having and alot of that was due to your rapport with the crowd and making them feel comfortable about getting out there and to just "dance". I personally know that several of the people out on the dance floor are what I call "non-dancers" -- people who I know feel they "can't" dance and feel as if they look foolish. I saw you on the dance floor with these people and made them totally comfortable about being there.

My husband and I will highly recommend you to anyone we know looking for a DJ service. We will confidently recommend you for other occasions as well. As a matter of fact, some of the people at the wedding work with me at The House of the Good Shepherd. Every March we have a Staff Appreciation Dinner usually at Roselawn. We so far have had the worse luck with DJ's, but this year we plan on trying to recommend you and hopefully obtaining your services for our yearly event.

Thank you again, Bill. You both did a wonderful job and made our wedding day a time to remember.

Sincerely,

James & Mary Belfiore
